

# GROW-GRAZE-PROFIT (GGP)

*Common sense tools and strategies to increase profit from livestock farms.*

- *Grow more & better feed*
- *Graze more dry matter*
- *Generate better returns*

### **Agronomy / Grazing Management**

The program provides participants with knowledge and skills required for the adoption of best practice with grazing crops, pasture agronomy and grazing management.

### **Monitor paddocks**

Participants use real farm paddocks to trial course concepts and evaluate how program principles are best adopted.

### **Program content**

- Mapping farm zones
- Fertilisers and soil ameliorants
- Cropping for better pastures
- Pasture establishment
- Tracking costs and returns
- Grazing management

### **Delivery**

- 3 x 1 day sessions
- Pre-reading and activities
- Flexible session timing
- Small groups & hands on

### **Joining a course or forming a group**

Contact us to see what courses are planned and/or to join a group. Courses can be conducted on request for existing groups.

For further information call Chris or complete & return the following form.

### **Expression of Interest:**

Please send me further information on the GGP program.
